

SSE Fuel Mix Disclosure

It's important you know how the electricity you use in your home is generated and the environmental impact. Several different fuels combine to make up our fuel mix including coal, gas, nuclear and renewable resources (sun, wind and water). We publish this information annually and call this our Fuel Mix Disclosure.

This table confirms the source of the total electricity supplied by SSE, trading as SSE, SSE Southern Electric, SSE Scottish Hydro, SSE SWALEC and SSE Atlantic during the period from 1 April 2017 to 31 March 2018.
